

## Origami Fish

Start with a square piece of paper

With the paper face down, fold vertically in half

Now fold the edges in to meet at the crease in the centre

Fold in half horizontally and crease well

Open up again

Now fold the top and bottom edges into the centre

Open the bottom fold out again

Start to lift the inner flaps outwards so you  
Creasing along the diagonal lines

Turn sideways and form the head by folding the corners diagonally inwards

Flip over and you are done!
