

Origami Starfish

Start with a square piece of paper

Fold the paper diagonally in half

Open out again

Fold diagonally in half the other way

Open out again

Fold vertically in half

Open out again

Fold horizontally in half

Open out again

Refold the paper diagonally to create a triangle and leave folded

Fold the left side of the triangle towards the front so the edge falls on the closest crease

Fold the right side of the triangle towards the back so the edge falls on the closest crease

Grab the tip of the front triangle and fold it under towards the right side.

Grab the tip of the back triangle and fold it over towards the left side.

Fold the left side of the triangle down along the crease

Fold the piece you have just folded back again, creating a new crease where you want the point of the star

Fold the right side of the triangle down along the crease

Fold the piece you have just folded back again, creating a new crease where you want the point of the star

Your star is complete
