

School Swimming Programme Scheme of work

- This document is intended to help with your long and medium term planning.
- By following this Scheme of Work, you'll ensure that all the outcomes within the School Swimming and Water Safety Award framework are met for Awards 1-6 – and where possible exceeded.
- This has been designed as a 10 week/term Scheme of Work but can be extended (if needed) as your pupils' progress.
- Your individual swimming lesson plans should be developed on the basis of the Scheme of Work.
- A number of lesson plans for each of the eight School Swimming and Water Safety Awards are available in the Resource Hub (found under [Teaching Resources>Lesson Planning](#)), and you can also find a template swimming lesson plan there too.

Awards 1 and 2

Week	Activities	Outcomes	Notes
1	<ul style="list-style-type: none"> • Health and safety talk. • Enter the pool via steps or swivel entry. • Assessment using games activities. • Travel across the pool forwards, backwards and sideways. • Exit the water using the steps. 	<ul style="list-style-type: none"> • Safe entry and exit. • Understanding of pool rules and health and safety. • Assessment of pupil's ability. 	<p>Assessment of children should be through fun activities or games, led by the teacher, for example 'Simon Says' All pupils should be engaged in the activities.</p>
2	<ul style="list-style-type: none"> • Enter the water using steps or swivel entry. • Travel across the pool in different ways (big steps, small steps, fast or slow). • Blow equipment across the pool (egg flips, or table tennis balls). • Push floats across pool (with chin, nose or forehead). • Group activity. • Exit the water safely. 	<ul style="list-style-type: none"> • Improve confidence moving across the pool. • Improve confidence when moving with eyes and mouth close to or submerged in the water. 	<p>The group activity should be a fun engaging activity or game, such as mini-polo, or the hokey-cokey.</p>
3	<ul style="list-style-type: none"> • Enter the water using a swivel entry. • Move across the pool in different ways (skipping, hopping or running). • Wet the face and hair. • Blow football with a partner. • Discuss with a question and answer session on pool rules. • Exit the water safely. 	<ul style="list-style-type: none"> • Improve confidence with water on the face. • Improve confidence when moving around the pool. 	<ul style="list-style-type: none"> • When moving around the pool, pupils should be encouraged to use both their arms and legs to help them move. • Ensure the whole group are involved with the question and answer session about pool rules and everybody understands them. • Make a game of the answers – pupils go to different area of the pool which signifies the correct answer (true or false scenario).

4	<ul style="list-style-type: none"> • Enter the pool using a swivel entry. • Shower the face and hair. • Blow bubbles with nose and mouth submerged. • Star floats on front and back. • Teacher led game. • Exit the water safely using steps or side. 	<ul style="list-style-type: none"> • Improve floatation. • Improve submersion. 	<p>Ensure pupils have an understanding of how floatation on the back can be a skill for safe self-rescue and also how it is used as part of swimming strokes/skills.</p>
5	<ul style="list-style-type: none"> • Enter the pool using a jump. • Float on front and back (star, mushroom etc.). • Practice regaining the standing position from floating on the front and back without support. • Push and glides to and from the pool wall. • Hold a discussion about beach safety and beach flags. • Exit the water safely using steps or side. 	<ul style="list-style-type: none"> • Improve floatation. • Improve rotation. • Recognise and understand beach flags. • Emphasis on streamlining with push and glides. 	<ul style="list-style-type: none"> • The minimum depth of water for a jumping entry is 1 metre. • A range of buoyancy equipment should be used to practice different floatation positions and push and glides. Pupils should also practice without any floatation equipment. • If preferred, discussing water safety can be a dry side activity at school or whilst travelling to or from the pool.
6	<ul style="list-style-type: none"> • Enter the pool using a jump. • Floatation on back (star, mushroom). • Practice regaining the standing position from back without support. • Alternating kicking on back. • Teacher led game. • Exit the water safely using side. 	<ul style="list-style-type: none"> • Improve floatation. • Improve rotation. • Introduce backstroke leg action. 	<ul style="list-style-type: none"> • A range of buoyancy equipment should be used to introduce kicking. • Confident pupils should be encouraged to try without any support. • Teacher led game could incorporate cross curricular links.
7	<ul style="list-style-type: none"> • Enter pool safely. • Discussion on water safety key messages. • Push and glide on back. • Alternating kicking with a sculling action on back. • Introduce backstroke arms. • Submerge the face in the water and blow bubbles. • Exit the water safely. 	<ul style="list-style-type: none"> • Understand the water safety key messages. • Improve submersion. • Introduce backstroke arm action. 	<ul style="list-style-type: none"> • If preferred, discussing the water safety key messages can be a dry side activity at school or whilst travelling to or from the pool. • Finish with pupils attempting a full stroke backstroke over 10 metres.

8	<ul style="list-style-type: none"> • Enter the pool using a jump. • Floatation on front (star, mushroom). • Practice regaining standing from front. • Alternating kicking on front. • Exit the water safely using side. 	<ul style="list-style-type: none"> • Introduce front crawl leg action. • Develop different floats on the front. • Develop front crawl kicking from push and glides. 	<ul style="list-style-type: none"> • A range of buoyancy equipment should be used to introduce kicking on the front. • Confident pupils should be encouraged to try without any support.
9	<ul style="list-style-type: none"> • Enter the pool safely. • Push and glide on front. • Alternating kick and introduce underwater phase of front crawl arms. • Recap on beach safety and beach flags. • Exit the water safely. 	<ul style="list-style-type: none"> • Introduce front crawl arm action. • Improve understanding of beach safety. 	<ul style="list-style-type: none"> • Question and answer with pupils of what happens performing a push and glide with head up, face in water, hands stretched in front of head apart, together etc. • If preferred, discussing beach safety can be a dry side activity at school or whilst travelling to or from the pool.
10	<ul style="list-style-type: none"> • Enter the pool safely. • Retrieve objects from pool floor. • Travel around the pool. • Travel five metres on front. • Travel five metres on back. • Discuss and practice signalling for help. • Exit the water safely using side. 	<ul style="list-style-type: none"> • Improve front crawl. • Improve backstroke. • Improve submersion. • Improve understanding the water safety key messages. 	<ul style="list-style-type: none"> • Pupils should be encouraged to travel around the pool in different ways using their own choice of travel.

Awards 3 and 4

Week	Activities	Outcomes	Notes
1	<ul style="list-style-type: none"> • Health and safety talk. • Enter the water safely with a jump and submerge. • Submerge to retrieve an object from the pool floor. • Floatation on front and back (star, mushroom, pencil). • Floating patterns in pairs or small groups. • Exit the water safely. 	<ul style="list-style-type: none"> • Safe entry and exit. • Understand the pool rules and health and safety. • Improve floatation on front and back. 	<ul style="list-style-type: none"> • The minimum depth of water for a jump entry is 1 metre. • Pupils should be encouraged to be creative during floating patterns e.g. by making letters, words and other shapes. • Pupils should have an understanding how floatation links to safe self-rescue.
2	<ul style="list-style-type: none"> • Enter the water safely (jump, swivel or steps). • Push and glide on the back. • Push and glide on the front. • Push and glide to the pool floor. • Perform a sequence of changing shapes. • Identify an open water hazard near their home or school. • Exit the water from the side of the pool. 	<ul style="list-style-type: none"> • Improve floatation. • Improve streamlining. • Improve understanding of water safety code. 	<ul style="list-style-type: none"> • Playing 'traffic lights' during push and glides can add healthy competition to the lesson. • When performing a sequence pupils should show a minimum of three changing shapes. • Identifying water hazards can be done at school or during travelling to or from the pool.
3	<ul style="list-style-type: none"> • Enter the water safely with a jump and submerge. • While floating rotate from front to back and stand. • While floating rotate from back to front and stand upright. • Demonstrate an action for getting help. • Exit the water without the use of steps. 	<ul style="list-style-type: none"> • Improve rotation. • Improve floatation. • Introduce safe self-rescue skills. 	<ul style="list-style-type: none"> • Demonstrating an action for help can be performed in shallow or deep water.

4	<ul style="list-style-type: none"> • Enter the water safely. • While travelling rotate from front to back and stand upright. • While travelling rotate from back to front and stand upright. • Travel on the front, tuck around the horizontal axis and return on the back. • Exit the water safely. 	<ul style="list-style-type: none"> • Develop different rotational skills. 	<ul style="list-style-type: none"> • Pupils should have a knowledge and understanding of how different rotational skills help with safe self-rescue.
5	<ul style="list-style-type: none"> • Enter the water safely. • Float on front (star, mushroom, pencil). • Alternating kicking on the front. • Introduce underwater arm action for front crawl. • Exit the water safely. 	<ul style="list-style-type: none"> • Improve rotation. • Improve front crawl leg action. 	<ul style="list-style-type: none"> • Encourage pupils to always start their kicking with a push and glide. • Think of how exiting the water can be delivered simulating an open water environment.
6	<ul style="list-style-type: none"> • Enter the water safely with a jump and submerge and return to the point of entry. • Push and glide on the front, log roll onto the back. • Alternating kicking on the front from a push and glide. • Front crawl arm and leg action. • Group activity. • Exit the water safely. 	<ul style="list-style-type: none"> • Improve front crawl. • Improve rotation. 	<ul style="list-style-type: none"> • The group activity should be a fun activity or game. E.g. sitting on float using arm action to travel. • Add healthy competition by seeing who can stay on the float for the longest or travel the fastest.
7	<ul style="list-style-type: none"> • Enter the water safely. • Push and glide on front with arms extended and log roll onto back. • Push and glide on back with arms extended and log roll onto front. • Alternating kicking on back. • Exit the water safely. 	<ul style="list-style-type: none"> • Improve streamlining. • Improve rotation. • Improve backstroke leg action. 	

8	<ul style="list-style-type: none"> • Enter the water by swivel entry • Alternating kicking on back from a push and glide • Backstroke arm and leg action back • Group activity - make different patterns and shapes using any skills and action • Exit the water safely 	<ul style="list-style-type: none"> • Improve backstroke leg action. • Improve full stroke backstroke. 	<ul style="list-style-type: none"> • Encourage pupils to decide and choose which skills and strokes they want to use to make different patterns
9	<ul style="list-style-type: none"> • Enter the water safely. • Travel on front, rotate around horizontal axis. and return on back. • Push and glide to pool floor. • Recap on the water safety key messages. • Exit the water without the steps. 	<ul style="list-style-type: none"> • Improve rotation. • Improve submersion. • Improve understanding of the water safety key messages. 	<ul style="list-style-type: none"> • To encourage pupils to push and glide to pool floor, add in hoops to glide through or sinking objects to retrieve.
10	<ul style="list-style-type: none"> • Enter the water safely with a jump and submerge. • Travel 10 metres on the front. • Travel 10 metres on the back. • Perform a shout and signal rescue. • Sequence of changing shapes. • Exit the water safely. 	<ul style="list-style-type: none"> • Improve front crawl. • Improve backstroke. • Improve safe self-rescue skills. 	<ul style="list-style-type: none"> • Travelling 10 meters can be performed as a group activity, such as: <ul style="list-style-type: none"> ○ Relay races; ○ Collecting numbers; ○ Letters from one side of the pool to the other. • Try to incorporate cross curricular links.

Awards 5 and 6

Week	Activities	Outcomes	Notes
1	<ul style="list-style-type: none"> • Health and safety talk. • Enter the water safely. • Develop backstroke kicking. • Backstroke kick in streamlined position. • Travel on back and log roll 180 degrees onto the front. • Exit water safely. 	<ul style="list-style-type: none"> • Understand the pool rules and health and safety. • Improve backstroke leg action. • Improve rotation. 	<p>Ensure pupils understand how log rolls link to safe self-rescue skills.</p>
2	<ul style="list-style-type: none"> • Enter the water using a pencil jump. • Kick 10 metres backstroke in a streamlined position. • Introduce backstroke arms. • Swim 10 meters backstroke. • Sculling practices, stationary and head first. • Exit the water safely. 	<ul style="list-style-type: none"> • Improve backstroke. • Improve sculling. 	<p>Pupils should scull in a stationary, head first and feet first position.</p>
3	<ul style="list-style-type: none"> • Enter pool with a star jump. • Develop front crawl kicking. • Front crawl kick in a streamlined position. • Travel on the front and log roll 180 degrees onto the back. • Teacher led game. • Exit the water safely. 	<ul style="list-style-type: none"> • Improve front crawl leg action. • Improve rotation. 	<p>Pupils should scull in both stationary, head first and feet first positions.</p>

4	<ul style="list-style-type: none"> • Enter the pool with a star jump. • Kick 10 metres front crawl with a float. • Introduce front crawl arms. • Swim 10 meters front crawl. • Sculling sequence in groups. • Give examples of where it is safe to swim and why? • Exit water safely. 	<ul style="list-style-type: none"> • Improve front crawl. • Improve sculling. 	<ul style="list-style-type: none"> • Pupils should use head first and feet first sculling and perform a rotation during the sculling sequence. • Healthy competition should be encouraged by giving scores based on performance.
5	<ul style="list-style-type: none"> • Enter pool with a tuck jump • Handstands • Somersaults • Breaststroke leg kick on front • Breaststroke leg kick on back • Exit the water safely without the use of steps 	<ul style="list-style-type: none"> • Improve aquatic skills • Introduce breaststroke leg action 	
6	<ul style="list-style-type: none"> • Enter the water with a straddle jump • Introduce breaststroke arms • Develop full stroke on breaststroke • Treading water • Exit the water without the use of steps 	<ul style="list-style-type: none"> • Introduce treading water. • Introduce breaststroke arms. • Attempt to swim 10 metre breaststroke. 	Provide pupils with the knowledge and understanding of why and when to use the skill of treading water for safe self-rescue
7	<ul style="list-style-type: none"> • Enter the water safely • Introduction to butterfly leg kick. • Sculling sequence with a partner. • Shout and signal rescue. • Swim 10 metres wearing clothes. • Exit the water safely. 	<ul style="list-style-type: none"> • Introduction to butterfly leg action. • Improve breaststroke. • Improve sculling. • Introduce pupils to swimming in clothes. 	You could link swimming in clothes and shout and signal rescue as a scenario for someone falling in to open water. Fun activities to introduce the dolphin leg action.

8	<ul style="list-style-type: none"> • Enter the water with a straddle jump. • From a push and glide swim 10 metres front crawl. • From a push and glide swim 10 metres backstroke. • From a push and glide swim 10 metres breaststroke. • Exit deep water without the use of steps. 	<ul style="list-style-type: none"> • Improve streamlining into strokes. 	
9	<ul style="list-style-type: none"> • Jump into the water, surface and swim back to the point of entry • Tread water. • Swim 25 metres. • Perform a shout and signal rescue. • Recap on action for getting help. • Exit the water safely. 	<ul style="list-style-type: none"> • Improve and recap on safe self-rescue skills • Attempt to meet one of the national curriculum outcomes of swimming 25 metres. 	<ul style="list-style-type: none"> • Try linking the skills together to deliver this as a safe self-rescue circuit. • The 25 metre swim needs to be as strong at the end of the swim, as at the beginning.
10	<ul style="list-style-type: none"> • Enter the water using three different jumps. • Swim 10 metres (own choice of stroke). • Swim 25 metres (own choice of stroke) • Head first and feet first sculling. • Somersaults. • Exit deep water without the use of steps. 	<ul style="list-style-type: none"> • Improve swimming technique. • Attempt to meet one of the national curriculum outcomes of swimming 25 metres.
