DESIGN	HEALTH & SAFETY AND FREQUENTLY ASKED QUESTIONS	ENERGY EFFICIENCIES	SWIMMING POOL OPERATION
ASA Pool Design Requirements for 25m x 6-lane pool	Breathing techniques and over breathing	A guide to combined heat and power (CHP)	Audio Visual Suppliers
ASA Pool Design Requirements for 25m x 8-lane pool	Concussion Guidance for the sport of swimming	A guide to wind power energy generation	Automatic Officiating Equipment Suppliers
ASA Pool Design Requirements for 25m x 10-lane pool	Deck level pools and raised ends	Basic energy saving solutions for existing pools	Changing cubicles and locker suppliers
ASA Pool Design Requirements for 50m x 6-lane pool	Disability Provision	Biomass Heating (Carbon Trust)	Floor tile suppliers
ASA Pool Design Requirements for 50m x 8-lane pool	Diving into swimming pools the issues facing swimming clubs and schools	Swimming pools – A deeper look at energy efficiency (Carbon Trust)	List of swimming pool filtration and disinfection dosing system engineers
ASA Pool Design Requirements for 25m x 10-lane pool	Dry land training for club swimmers	Renewable energy – Ground source Heat Pumps Factsheet	Ultra-violet and Ozone suppliers and installers
Deck level pools and raised ends	Guidance in the performance of tumble turns	Guide to heat pump technology	Pool Hoist, Transport Chairs and Evac Chair manufacturers and suppliers
Pool Housing Companies	Guide to lane management	A guide to solar power	Pool Programming
Electronic Drowning Detection &	How long should a swimming teacher	Heatsavr – Liquid Pool Cover	Spectator seating suppliers

surveillance systems for swimming pools	work on the poolside without a break?		
Swimming Pool Architects List	The wearing of jewellery guidance	Rainwater harvesting and waste water recycling	Starting Platforms and suppliers
Swimming Pool Consultants List	Jumping into shallow water	The use of energy in swimming pools	Air ventilation and circulation systems suppliers
What is a swimming pool?	Manual handling for the sport of swimming	Energy efficiency in swimming pools (PWTAG)	Lane ropes suppliers
Historical capital costs details for 50m, 25m & 20m pools	Risk Assessment for diving competition events		Moveable floors and bulkhead manufacturers and suppliers
Leisure Water Research	Risk Assessment for swimming competition events		Thermal swimming pool blanket covers and suppliers
ASA Pool Design requirements for water polo	Risk assessment for young person at work		Water testing equipment and suppliers
Temporary Pool Suppliers	Risk assessment for new and expectant mothers		The economy of swimming
ASA Pool Design requirements for diving pools	Submersion of babies		Drowning detection systems for public swimming pools (Sport England)
Spectator & Competitor seating for championships and competition events	Supervision of swimming club children in changing rooms		PWTAG Code of Practice 2015/16 Incorporating HSE guidance
Minimum spectator seating for competition events	Use of swimming goggles		Microbiological sampling (PWTAG)
Specifications for timing equipment for an 8-lane pool	Swimming pool admission policy		Cryptosporidium: what pool operators need to know (PWTAG)

Utilising and optimising the use of school swimming pools	Swimming pool temperatures		Regenerative media filters (PWTAG)
50m pool certification protocol	Swimming teaching whilst pregnant		Polyaluminium chloride (PAC) dosing (PWTAG)
25m pool certification protocol	Teaching in the water and the handling of children		Superchlorination of swimming pools (PWTAG)
25m x 8-lane swimming pool advantages	The competitive start awards		Faecal contamination (PWTAG)
Reasons for pool water depths and traditional profiles	The use of wheelchairs on the poolside		Preventing and dealing with algae in pools (PWTAG)
Procurement guidance for the provision of polycarbonate housings to cover outdoor pools	Use of electrical equipment and appliances near swimming pools		Carbon Dioxide for pH control (PWTAG)
The criteria for a 50m pool regional/sub-regional performance centre	Water depths and activities that can take place in different depths		Dealing with sodium hypochlorite spillage (PWTAG)
British & European standards and industry guidance in Sport & Recreation and specifically swimming pools	British & European standards and industry guidance in Sport & Recreation and specifically swimming pools		Hydraulics for good pool water treatment (PWTAG)
Making a planning application (Sport England)	<p>SHORT REPORT</p> <p>An outbreak of cryptosporidiosis at a swimming club – can rapid field epidemiology limit the spread of illness?</p>		Interactive water features (PWTAG)

Accessible Sports facilities (Sport England)	Trichloramine and Asthma in Swimming pools & spas Problem solved By Dr.Howard T Dryden October 2006		Atmospheric determination of chloramines (PWTAG)
School Swimming Pool Toolbox	Faecal contamination (PWTAG)		
Temporary swimming pools Report (Sport England)	Notes on the hygiene of pool play equipment (PWTAG)		
HSE Guidance on moveable floors	Total Dissolved Solids control with electrolytic generation (PWTAG)		
Myrtha swimming pool air supply study	Babies and toddlers swimming in warm hydrotherapy pools (PWTAG)		
Concrete and stainless steel pools comparison (Tom Devin)	Blood or vomit in pools (PWTAG)		
Sport England/ASA Design Guidance Notes			
PWTAG – Balance Tank Design for deck level pools			
PWTAG – Ultra-violet disinfection – specification, maintenance and validation
