

# Coaching and Teaching Qualification and Certificate check matrix

This certificate check matrix is designed to help members of the aquatics community to understand what level of qualification, certificate or award they have in relation to the name that appears on the 'Club Personnel Report', used when completing the club affiliation process, and the actual name on their qualification certificate.

There are a number of older qualifications or certificates that will have been deemed a certain 'level', however the matrix provides the qualification name that will be shown on the certificate, the various names that have been inputted into the Swim England database and the equivalent level that the qualification is deemed in terms of Level 1-3.

If the certificate name does not appear on this coaching matrix, please also check the teaching matrix (page 8 within this document). If there is still no listing, please contact [clubdevelopment@swimming.org](mailto:clubdevelopment@swimming.org).

Please note there are some Teaching Certificates from between 1978 and 2007 that are equivalent to a level of coaching qualification, these are shown on both the coaching and the teaching lists.
