Swim England President

Roger Prior

President

Roger has dedicated many years of service to aquatics through a range of leadership, governance, and officiating roles at county, regional, and national level. A past president of Berkshire & South Buckinghamshire ASA, Southern Counties ASA, and Swim England South East Region, he was instrumental in guiding the South East through the process of regionalisation, serving as chairman of the Shadow Board during this transition.

As a long-standing member of the Southern Counties ASA Management Committee, Roger also chaired the Swim England South East Region Management Board for nine years and continues to contribute as a valued member of the board. Between 2018 and 2023, he served as the board member responsible for finance, and is currently the financial director of Swim England South East Limited until 2027. In addition, Roger represented the region on the Sports Operations Committee until its dissolution.

Alongside governance, Roger has made a substantial contribution to officiating within the sport. An experienced swimming referee and referee course leader, he has chaired Juries of Appeal for both Swim England and British Swimming and has undertaken the role of technical director at major national competitions.

Roger is looking forward to his year as president, representing Swim England, and continuing his service to the sport.

120. PROTESTS AND PROTEST APPEALS

120.1. A protest is an allegation that Swim England Regulations, Technical Rules or the promoter's conditions governing a competition have not been complied with or have been misinterpreted (a "Protest").

120.2. A Protest may be made by an individual competitor (who may nominate an appropriate alternative person to act on their behalf if they wish) or by a club, body, or official taking part in the competition.

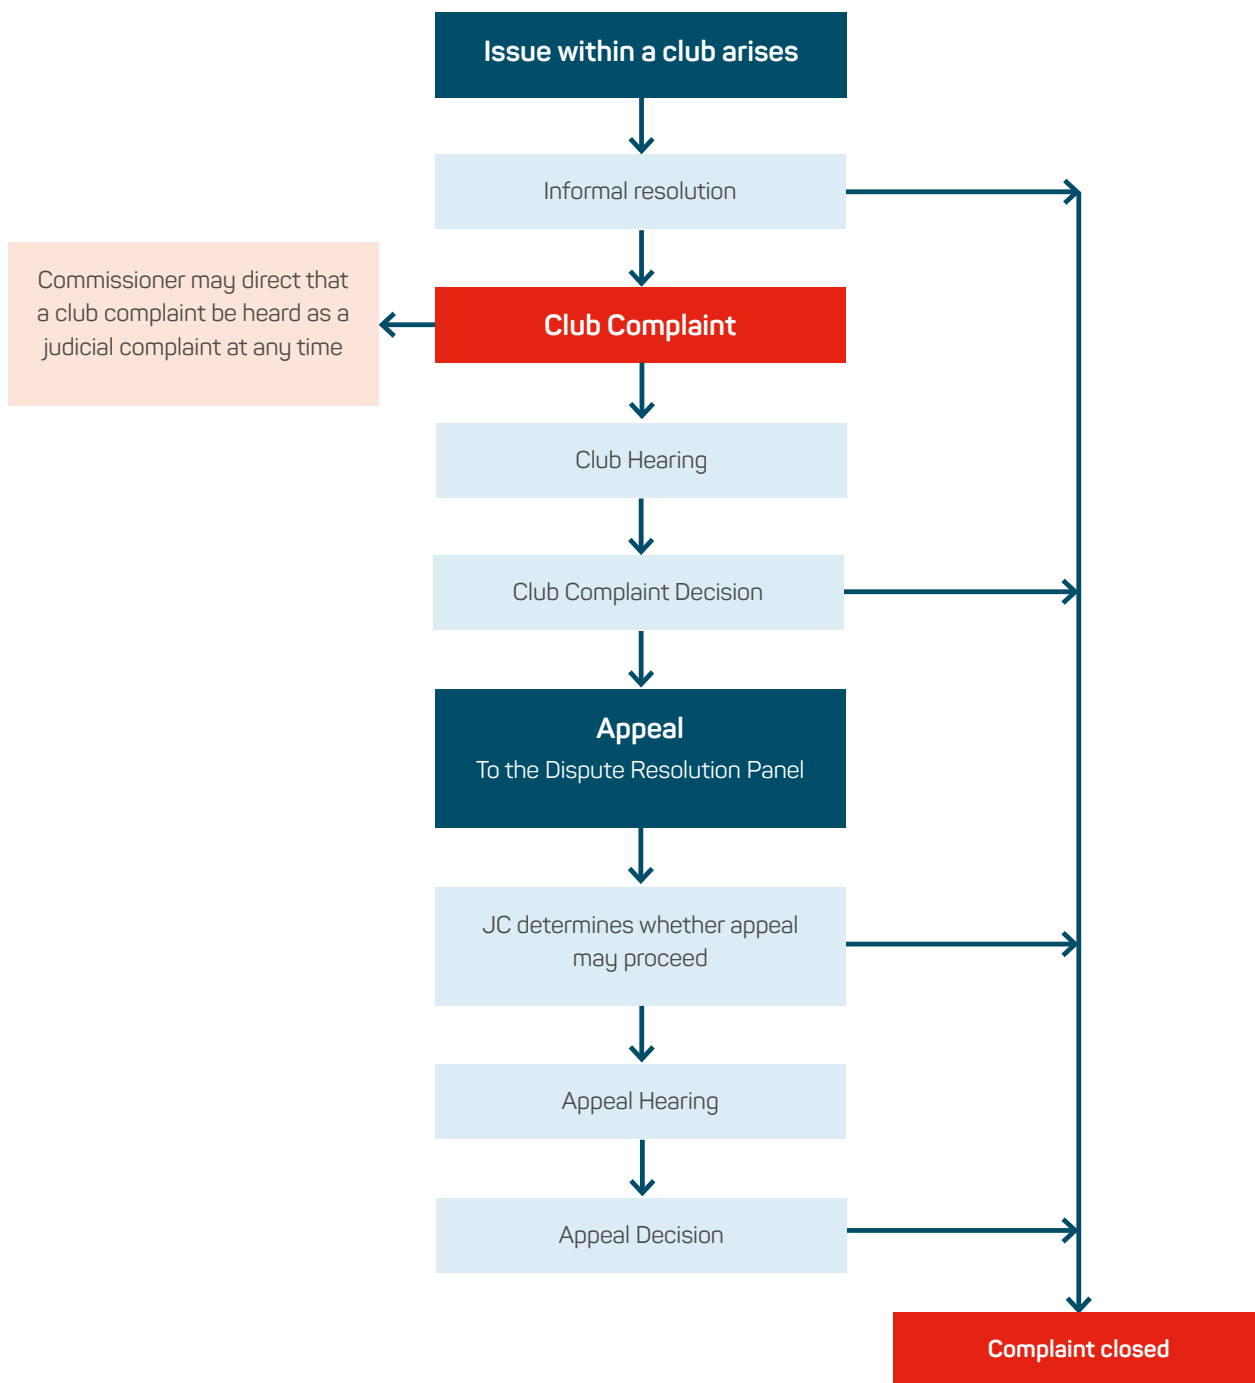

120.3. A Protest must be made orally to a referee or, if appropriate, to a water polo delegate, and confirmed in writing as soon as reasonably practicable (and within 30 minutes) following the conclusion of the event or match during which the incident giving rise to the Protest took place, unless the reason for the Protest is known before the event or match, in which case, the Protest must be made as soon as reasonably practicable before the event or match starts. If a Protest is made prior to the appointment of the referee(s) or water polo delegate(s) then the Protest should be made to the promoter, who shall refer the Protest to a referee or water polo delegate when the promoter appoints the referee(s) or the water polo delegate(s).

120.4. Where material facts are brought to the attention of a competitor, club, body or official taking part in the competition which, if they had known during that competition a Protest would have been likely to have been made during that competition or within 30 minutes following the conclusion of the relevant event, a post-event Protest may be made to a referee or water polo delegate who

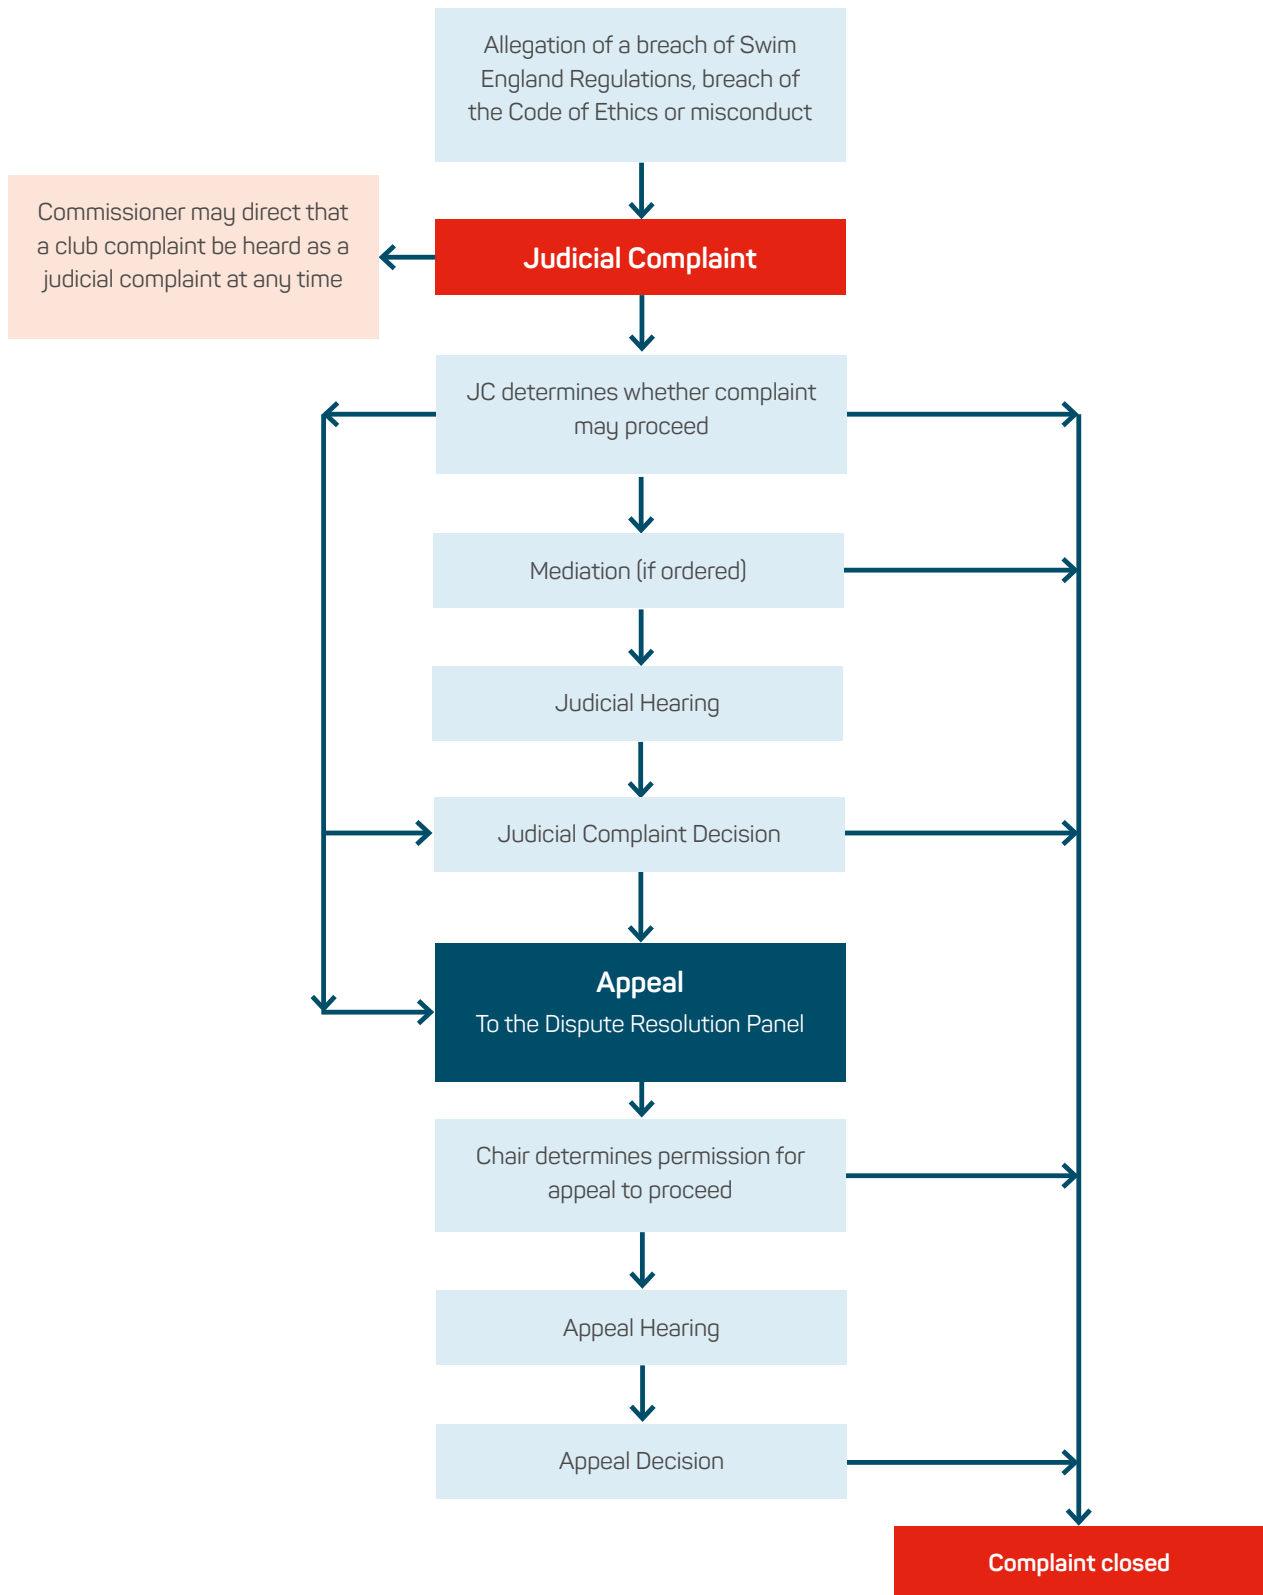

may, in their discretion, deal with it as if it had been made in accordance with Regulation 120.3 above, provided that they are satisfied that it would be in the best interests of the sport to do so and provided further that the individual or other person making a post-event Protest did so as soon as reasonably practicable.

- 120.5.** A referee or water polo delegate has authority to receive and decide a Protest at their sole discretion. The referee or water polo delegate shall ascertain the relevant facts and endeavour to resolve the matter as soon as practicable after the protest is received. In the event of the Protest not being resolved before the event is scheduled to take place, that fact shall be reported to the promoter and the event shall be held under protest. Unless the referee or water polo delegate is satisfied that the protest, however resolved, can have no effect on the awards, all medals or prizes shall be withheld until the protest and any appeal arising has been heard.
- 120.6.** A Protest may not be made against a decision of a referee or any other official regarding placing, fouling or any other facts of a competition. A referee's or water polo delegate's interpretation of Swim England Regulations, Technical Rules, or promoter's conditions must be accepted at the time but may be the subject of a protest.
- 120.7.** The promoter of an event at which a Protest has been made shall take possession of and store any documents relating to the Protest and its resolution or otherwise, for a period of not less than 12 months after the event.
- 120.8.** If, following a decision regarding a Protest, the person(s) making the Protest feels that there has been a failure to resolve a Protest or that there are grounds under the relevant Swim England Regulations, Technical Rules or the promoter's conditions governing a competition to submit an appeal against a Protest decision, they may do so as an Appeal to the Jury of Appeal for the event or, if one has not been appointed, to a Judicial Committee in accordance with Regulation 110.

- 601.3** Regulation 50 and Swim England General Competition Regulations (the Regulations numbered from 401 to 420); and
- 601.4** the Swim England Disciplinary Procedures.

Technical Rules of Artistic Swimming

Changes to the Technical Rules of Artistic Swimming normally come into effect from 1 September in each year, unless the Board decides on a different date.

701. Artistic swimming competitions held under the jurisdiction of Swim England, subject to the overriding condition that the published Swim England Health and Safety guidelines take precedence over the provisions of any or all of them shall normally be held under:

Technical Rules of Diving

Changes to the Technical Rules of Diving normally come into effect from 1 September in each year, unless the Board decides on a different date.

801. Diving competitions held under the jurisdiction of Swim England, subject to the overriding condition that the published Swim England Health and Safety guidelines take precedence over the provisions of any or all of them, shall normally be held under:

If a diver before or during a competition is expected to perform a dive in such a way as to endanger their personal safety, or the safety of others, the referee may exclude them from the competition.

Certificate of Exception

The purpose of the certificate is twofold:

A number of swimmers have impairments that prevent them from competing against non-disabled competitors under the agreed technical rules. A 'Technical Exception' can be applied for to ensure that disabled competitors do not get disqualified for performing a stroke incorrectly due to their disability and who:

- Have not yet been classified;
- Do not wish to undergo classification;
- Do not fit the Physical Classification System.

Technical exceptions will only be granted to swimmers who are Swim England members with a permanent disability and not to swimmers with a short term incapacity.

OR

A number of swimmers may experience circumstances that preclude them from complying with swimwear regulations. Examples of this include: faith considerations, gender reassignment or the taping of medical devices.

In such instances a 'Swimwear Exception' can be applied for to ensure that competitors do not get disqualified or prevented from competing.

In each instance, the certificate is valid for two years and will need to be reapplied for.

To obtain a certificate a swimmer should download the application form from the Swim England website: www.swimming.org and return to the address stated.

A laminated certificate will then be issued for presentation to the referee before the start of a race.

No disability swimming record can be claimed when using this certificate for a technical exception.

Regulations for the Payment of Expenses by Swim England

The payment of expenses shall be subject to the authorisation of the person responsible for the finances of the activity, hereafter referred to as the designated officer.

The organisation requires that all claims submitted are accompanied by receipts showing the payment, and where appropriate, any VAT with a VAT registration number. (For this purpose debit and credit card slips are not acceptable.) Claims submitted without receipts may result in a delay in payment.

For the guidance of members, the following expenses shall normally be considered for payment:

Essential travel for business purposes

1. Rail travel and public road transport: standard fare or discounted fares that are available and suitable.
2. Taxis: actual fare, provided that reasonable public transport is not available, start and end destinations to be identified on the expense form, to comply with HMRC recommendations.
3. Air travel: Economy class or lowest prevailing fares available.
4. Private car:
Up to 10,000 miles – this will be subject to HMRC Guidelines.
Over 10,000 miles – this will be subject to HMRC Guidelines.
Start and end destinations for each journey should be noted on the expense claim.

Assembly costs for athletes

1. Rail travel and public road transport – standard or discounted rail fare for one return journey from an athlete's place of residence to an agreed assembly point.
2. Air travel – Internal flights may be arranged at the discretion of the organisation on behalf of athletes.
3. Private car – as per the current guidelines.

The following conditions apply to these rates:

1. The rates are in line with HMRC approved mileage rates for use of a private vehicle on company business. The decision of the organisation to move the volunteer mileage rate in line with HMRC rates does NOT imply any employer/employee relationship between the parties. The organisation's mileage rate is intended to cover travel expenses incurred whilst undertaking voluntary activity on behalf of the organisation.
2. The organisation does not take any responsibility whatsoever for the tax status of volunteers with HMRC. This is the sole responsibility of the individual. Specifically, should a volunteer claim more than 10,000 miles at the recommended HMRC guidelines from both their ordinary employment plus any organisational and other volunteer activity, the volunteer is responsible for the tax position arising. The organisation does not undertake to log the total mileage of its volunteers – only that mileage incurred on organisation's activity.
3. Economy class air travel by volunteers may only be made by prior agreement and must be booked via the organisation's office.
4. Assembly costs for Team staff and athletes.
Standard class or discounted rail fare from normal training venue to assembly point and return. Internal flights may be arranged at the discretion of the office for swimmers and athletes.

Mileage claims will be checked against a current route planner. Diversions, alternative routes etc. must be denoted on the form and the reason for the diversion etc. stated. If the route involves a several stage journey each individual leg of the journey must be recorded.

Accommodation – excluding National Events

Where overnight accommodation is necessary, it should, where possible, be arranged through the Swim England office or a designated officer. Payment of expenses shall be against actual costs incurred. Normal reimbursement for the value of an evening meal is as per the current guidelines held by the Chief Financial Officer.

Accommodation – National Events

Volunteers may be required to share accommodation or pay the single supplement themselves or make a contribution to the cost of accommodation. Reimbursement for the value of an evening meal is capped at £15.

Expenses claimed in excess of these guidelines must contain a note explaining the reason for the difference together with a bona fide receipt.

When anyone travels outside Great Britain, at the behest of, or under the control of the organisation, the travel arrangements will be made and paid for by the organisation.

Championships and Competitions

Masters Swimming

Masters swimming is competitive swimming for adults. From small beginnings in the 1970s and 1980s this branch of aquatic sport has grown from a pastime for a few into a worldwide movement. The history of masters swimming is brief, the first recorded meet was held in Amarillo, Texas, in May 1970, which attracted 65 swimmers. Gradually the idea that you could swim after the age of 20 spread world wide and World Aquatics introduced a World Masters Swimming Championships meet in 1986, and Masters Swimming formed a major part of the first World Masters Games, held in 1985.

The first masters meet in Great Britain was promoted by Otter SC at the City University pool London, in 1972. The first English championships were held at York in 1981, and the first GB Masters Championships were held at Port Talbot in 1987, the same year as the first LEN European Masters Championship, held at Blackpool.

Masters Swimming in England is promoted through the Masters Working Group, which reports to the Swimming Leadership Group. Each region has a Masters Committee and a Masters secretary who, between them, promote masters swimming in the eight regions. Many, though not all, counties also promote competition within their county areas.

The general format of Masters Meets is similar the world over:

- events are swum either as graded heats (with swimmers arranged from slowest to fastest with no age consideration) or, in some major competitions, in heats arranged by speed within age groups.
- age groups are the standard five-year groups starting from 25–29 years. Many competitions, including the Swim England and Aquatics GB Championships, also incorporate a senior age group which is 18–24 years.
- records are maintained for all standard events in both 25 and 50 metre formats.
- annual top 10 ranking lists are compiled on a British, European and World basis.

The Masters working group promotes:

- the annual Swim England Masters Championships.
- the postal 'T-30 Challenge'.
- the Inter-Counties Competition. The overall result is obtained from the performances achieved in four separate regional heats: North, Midlands, South East and South West.
- the annual Swim England National Masters Open Water Championships will have events of 1.5k and 3k for all age groups.

The standard of swimmers at the leading edge of masters is extremely high, with some former internationals swimming faster than they did in their elite days. Masters competitions are not confined to the former elite; participation, enjoyment, and health are the three major strands of Masters Swimming.

The concept of adult competition has also spread to other aquatic disciplines, with well-established events in diving, water polo, and artistic swimming:

- Masters diving is from 25 years, with many of our diving clubs currently offer a masters section. We are working towards growing the sport of masters diving within the country.
- Masters water polo starts at the age of 30 years and is currently integrated within the main stream water polo clubs but this could develop more in the future.
- Masters artistic swimming starts from the age of 25 years and has a vibrant community which is growing steadily within this country.

There is also a Masters Committee within Aquatics GB. At British level there is a long course championship normally held in June, and the Committee also oversees aspects of masters swimming which have a British dimension, such as maintenance of Masters Records (including nominating British performances for European and World records), a central Masters ranking list and the Masters Swimming Decathlon competition.

The Margaret Davies Trophy

To be awarded annually to a member of Swim England, under the following conditions:

- The Trophy shall be awarded to the winning coach/teacher under the following criteria:
 - divers at the Elite Junior Nationals and National Age Group Finals will have their total event score on each board, averaged (total score divided by total number of dives performed). The winner of the Margaret Davies Trophy shall be the coach who accrues the most points when all the averaged scores are added together for their divers at both events. The score from the diver's last performance will be counted, therefore if the diver makes the final, that score will be counted, if the diver does not progress to the final, the preliminary score will be counted (in all circumstances, it is the 'full list' score which is used for calculations).
 - if a diver performs one or more dives in the final and withdraws, their score from the final will still be averaged over the number of dives they should have performed, if a diver progresses to a final, but does not compete, their preliminary score will be counted.
- in the event of a tie recipients shall hold the trophy jointly.
- in the event of a diver being coached by two or more coaches, it must be decided and indicated on entering the event, which coach will receive the diver's points for this award.
- the Management of the Trophy shall be in the hands of the Diving Committee.
